WE'RE GOING TO FAIL.
The failure to which we refer is our inability to answer all the questions as to "why" and "how" we can afford to sell our Goods at such ridiculously low prices. But never mind the "wherefores," we can save you money on everything you buy from us, and you are sure to be more than satisfied with our dealing.
A. GILMORE, Merchant Tailor and Clothier.

Wm. McCABE, Managing Director.
REDUCED ENDOWMENT INSURANCE.
Policies on this plan will be issued for terms of 10, 15, or 20 years, as may be chosen by the applicant.
They provide for the payment of the full face of the Policy of $1,000 in case death occurs within the term of the Insurance; but in case the insured lives to the end of the term chosen, then $300, and in addition the accumulated profits is payable upon the 10-year Policy; $400, with like profits upon the 15-year Policy, and $500 and profits upon the 20-year Policy.
If the Policy is for more than $1,000, the Cash Endowment and profits payable at the end of the term are proportionately increased.
This plan gives the insured Policy to run for a stipulated term of years, with an agreement from the Company to buy the Policy at the end of the term for its full value, including its share of accumulated profits.
All Policies on this plan participate in profits (payable only at the end of their respective terms,) are non-forfeiting after three annual premiums have been paid, and are then good for fully paid up Insurance for all the unearned premiums thereon will buy according to the Co'y's rates.

CABLE NEWS.

Large Number of Russian Offenders Sentenced to Exile.

The Queen's Garden Party a Grand Success at Buckingham Palace.

Condition of the Crown Prince of Germany—General Ferron's Proposals for the French Army Rejected—Official Changes in Ireland.

Russian Punishment.

ST. PETERSBURG, June 29.—The *Official Messenger* announces twenty-one persons were tried at St. Petersburg between the 7th and 16th of the present month, on a charge of being active members of the society called "Will of the People;" of complicity in several murders, including that of Chief of Police Col. Sudelka and of participation in a number of robberies and dynamite outrages. Three of the prisoners were acquitted and all the others sentenced to death. Death sentences were, however, commuted in the cases of two prisoners to exile in Siberia and in those of the others to imprisonment and hard labor.

Irish Changes.

DUBLIN, June 29.—It is stated that Holmes, attorney-general for Ireland, is about to be raised to the Irish bench as a justice of the court of common pleas; that Gibson, now solictor general for Ireland, will succeed him as attorney-general, and that Sergt. Peter O'Brien will become solicitor general.

Queen's Garden Party.

LONDON, June 29.—The Queen's garden party at Buckingham palace this afternoon was a great social event. Thousands of invitations were issued. All the royal visitors who came to attend the jubilee were present.

The German Prince's Throat.

The British *Medical Journal* says Mackenzie has removed almost all the fungus growth that remained in the throat of the German crown prince when he left for home. The *Journal* adds, however, that since the last operation was performed the prince caught somewhat of a severe cold, the result of which is that the pharynx and larnyx are both acquitely congested, the parts in the vicinity of the fungus growth being less affected than others. The local swelling has caused some difficulty in swallowing, but it is hoped this will soon disappear. The case at present requires the greatest care and will require it for several weeks. In the meantime surgical operations will be suspended. Mackenzie is not troubled at the prince's condition.

Gen. Farron's Proposals Rejected.

PARIS, June 29.—The commission of the chamber of deputies, appointed to examine and report upon the proposals relative to the army submitted by Gen. Ferron, the new minister of war, rejected them to-day. The rejection caused a sensation.

CANADIAN NEWS.

Locomotive Engineers.

OTTAWA, June 29.—The Brotherhood of Locomotive Engineers opened their annual convention here this morning under the auspices of the Canadian division. Nearly 400 visitors are in attendance

CONDENSED DISPATCHES.

Yellow fever is increasing at Key West, Florida.

Five blocks of Hurley, Wis., have been burned, causing a loss of $700,000.

The destruction of Marshfield, Wis., by fire has caused a loss of $3,000,000.

The North German Derby, which was run at Hamburg, was won by Rothschild's Zaupan.

Gholm Hoder Hlahu has defeated the Ghilzai near Istadeh and killed a large number.

General Barnes denies the statement that he has been retained by Mrs. Langtry in a suit for divorce.

Baron Seilliere, who was a familiar figure in San Francisco, has been confined in a lunatic asylum in France.

Prince Albert Victor yesterday laid the foundation stone of the new wing of the hospital for incurables at Donnybrook.

Another trans-Pacific line is being organized to ply between Portland and Japan in the interests of the Northern Pacific.

Archbishop Walsh, of Dublin, denies that he offered any opposition to the Pope's purpose to send Monsignor Perrico on a mission to Ireland.

The steamship Oceanic has arrived at Yokohama, making the run in 15 days, 23 hours and 7 minutes, which, it is claimed, is the best time on record.

Chinese legations at Paris and London are to be united. Hung Sing is to be the new Chinese Ambassador to Germany, Austria, Russia and Holland.

Natives state that Sardar, the Mohamed leader in Ghilsaiz in rebellion, recently captured Gardiz without fighting, and afterward marched upon Ghuzui.

The stage running between the Mountain House and Forest City, Cal., was robbed. The driver, Tom Davis, and a passenger named Ben Treloar were shot.

A. B. Bird, with his wife and daughter, were imprisoned at Del Norte, Mexico, without cause; also an entire opera company. Great indignation is felt by Americans.

Jack Hayes, the murderer of Phillip Mueller, whose case was in the St. Louis courts and who was under sentence to be hanged on Friday, July 1st, was declared insane.

The Berliner Ruder club won the emperor's challenge cup for four-oared outriggers at the Berlin regatta, and the Frankfort crew won a similar cup in the Ems regatta.

Nihilists, according to police authorities at St. Petersburg, have resumed active work in collecting money, ostensibly for charitable purposes, and spreading pamphlets broadcast.

The threats of France in connection with the Anglo-Turkish convention had the effect of exasperating the Porte, and it is believed the Sultan will finally sign the convention.

At Newcastle and High Gosforth Park summer meeting yesterday the race for the Northumberland plate of 1,000 sovereigns was won by Exmoor, Castor, second, Vagabond, third.

Returns from several thousand local assemblies of the Knights of labor, show that the new constitution and the national trade assemblies clause have both been accepted by a three-fourths vote, and it is probable that the general executive board will promulgate a new constitution which contains more important changes, about July 10th.

The issue of standard silver dollars from the United States mints during the week ending June 15th was $50,926. Shipments of fractional silver coin since June 1st amount to $582,197.

A startling rumor has been widely circulated in Chicago to the effect that the supreme court has decided to give the condemned anarchists a new trial, overruling Judge Gary's decision.

The English will not accede to the Turkish demand that England shall only have the right to re-occupy Egypt in case of Turkey being unable to send her own troops, and applies for England's assistance.

The United States commissioner of the general land office has issued to the registrars and receivers of the United States land offices an amendatory circular to govern the proceedings to obtain title to public lands under the desert land law.

The new joint tariff of the Southern and Union Pacific companies, giving through freight rates from California terminals to points on the Oregon Short Line, Utah & Northern and Montana Union railways, and the Northern Pacific from Garrison to Helena inclusive, is a complete rebuttal to the allegation of a lack of harmony between the two systems.

DIVISIONAL COURT.

(Before McCreight and Walkem, J.J.)

Peter O'Reilly *vs.* Ah Yuen.—On the 23rd May last an order was made by Mr. Justice Crease restraining the defendant from trespassing and mining for gold on certain lands at Yale owned by the plaintiff. The *interim* order was duly served on the defendant, but he still continued mining on the land and for such disobedience Mr. Justice Crease, on the motion of Mr. Pooley, Q. C., for the plaintiff, on the 9th of June made an order that the plaintiff should be at liberty to issue a writ of attachment. A writ of attachment was accordingly issued, directed to the sheriff of the city of New Westminster, commanding him to have the defendant before the court at Victoria to answer his contempt for disobeying the restraining order. The sheriff for the city of New Westminster arrested the defendant at Yale and brought him down and lodged him at the gaol at Victoria. The sheriff then returned to New Westminster.

On the 20th June Mr. S. Perry Mills moved that the defendant be discharged out of custody. Mr. Justice Crease refused to discharge the defendant and dismissed the application with costs to be paid by defendant. From this order the defendant appealed to this court.

Mr. Mills for defendant, contended that although a judgment or order requiring a person to do any act other than the payment of money or to abstain from doing anything might be enforced by a writ of attachment or by committal; yet those are cases where the distinction will still be maintained, viz: Committal was the proper remedy for doing a prohibited act and attachment was the proper remedy for neglecting to do some act ordered to be done. In the present case the defendant disobeyed a restraining order, the plaintiff's remedy was therefore by motion to commit and not for a writ of attachment.

The sheriff arrested the defendant at Yale within his bailliewick, and in obedience to the writ of attachment could have brought the defendant to the bar of the court at Victoria although without the bailliewick of the sheriff for Vancouver island, but the sheriff had no power to put the defendant in gaol there, neither had the gaoler at Victoria any legal authority to receive the defendant. The sheriff should have kept the defendant in the gaol at New Westminster within his bailliewick, and at the proper time brought him to the bar of the court here. The court then could have made an order committing the defendant to the custody of the sheriff for Vancouver island. The defendant was therefore not in lawful custody.

Mr. Pooley, Q. C., appeared for the plaintiff.

The court made an order setting aside the writ of attachment and discharging the defendant out of custody. The defendent giving no undertaking to obey the injunction.

MARINE.

Spoken, June 3, in 34° N., 17° W., Br. bark Craigwhinnie, for this port.

Ship America arrived last evening from San Francisco to load coal at Departure Bay.

A bark, name unknown, was sighted at Cape Flattery last night bound to Departure Bay for orders.

Ship St. Charles is now under the Wellington shutes to be followed by the ships Glory of the Seas and Sintram.

Ship Chesebrough expected to complete her cargo of V. C. Co.'s coal yesterday and leave immediately for San Francisco.

Steamship Wellington expected to leave Departure Bay yesterday with 2500 tons of Wellington coal for San Francisco.

Bark Bundaleer has been cleaned and painted and will now go under the shutes and take on a cargo of East Wellington coal.

Ship T. F. Oakes will then take her place under the V. C. Co.'s shutes, to be followed by the ships Harland, Wilna and Challenger.

Ship Solitaire, Capt. Sewell, (in tow of the steamer Pilot) sailed with 2400 tons of Wellington coal for San Francisco on Tuesday.

Steamship Empire, Capt. Butler, completed her cargo of East Wellington coal last evening and left at once for San Francisco.

[BY TELEGRAPH.]

SAN FRANCISCO, June 29.—Arrived—Steamer Walla Walla, Seattle. Cleared—Steamer Oregon, Portland; ship Tarrielon, Victoria; bark Ceylon, Port Townsend. Sailed—Barkentine, Grace Roberts, Port Townsend.

A Professional Opinion.

Rev. F. Gunner, M. D., of Listowel, Ont., says regarding B. B. B., "I have used your excellent Burdock Compound in practice and in my family since 1884, and hold it No. 1 on my list of sanative remedies. Your three busy B's never sting weaken or worry." tu-th-sat-dw

AMERICAN NEWS.

The American Lily to Recite a Poem on the Fourth of July.

A Serious Earthquake Occurs at Guayquil in Old Mexico.

The Contest Over the Famous Blythe Estate—Rescuing the Imprisoned Nevada Miners—A Distressing Accident—The New Honolulu Steamer.

The Topeka Repaired.

SAN FRANCISCO, June 29.—The steamship City of Topeka has been cleaned and repaired throughout during the past four days. She is soon to start for San Diego, and will go at once on the Atchison, Topeka and Sante Fe company's line to Honolulu. The company will run three steamers on the route, but the others have not been selected.

Appeal Denied.

The supreme court has denied the appeal of Lee Sare Bo, who murdered Ah Chuck on October 5th, 1882. He must hang.

American Lily.

Mrs. Langtry having announced her intention to become a citizen of the United States, the chairman of the local fourth of July committee has addressed her an invitation to recite a patriotic poem at the Grand Opera house on the national day.

The Blythe Estate Contest.

Edmund J. Moffatt, United States deputy consul-general at London, England, has written to the probate court in this city to state that a portion of the estate of T. H. Blythe is being offered for sale in London, and asking if it is done by authority of the court. He says the property is alleged to be located in Sonora, Mexico, out of jurisdiction of the court, but that the parties about to dispose of it claim that the administration of the estates has ordered its sale. A justice of the peace of Gilroy has written to Judge Coffee that he is willing to testify that T. H. Blythe, the millionaire, came over from England in the same ship with him in 1864. His testimony would rather disprove the theory that Blythe was a ticket-of-leave man and came here from Australia, as has been alleged by some of the heirs.

The Work of Rescue.

VIRGINIA, Nev., June 29.—Nothing yet has been heard from the imprisoned men in the Gould & Curry mine bottom. The rescue drift is within eight feet of the connection with the Best & Belcher drift, where the miners are supposed to be. Drills have been sent ahead and connection is looked for every minute. Rumors of all kinds have been afloat since midnight, connections having been made with miners having been found dead, etc., but there is no truth in anything.

A Distressing Accident.

HOLLISTER, Cal., June 29.—Donald Steward jumped from the top of a hay press this morning, while at work in Pache pass, twelve miles from Hollister, and fell on the handle of a pitchfork sticking upright in the ground. The handle penetrated his bowels to the depth of eight inches and he now lies in a precarious condition.

A Dangerous Earthquake.

GUAYQUIL, June 29.—The most violent earthquake experienced here since 1858 occurred at 6;20 this morning, causing great alarm among the people. The shock lasted two minutes and twenty seconds, and the direction of the movement was from northeast to southwest. All clocks in the city were stopped at the moment of the shock. A number of ceilings were shaken down and several buildings demolished. As far as is reported no one was injured.

MAINLAND NEWS.

(Columbian.)

A seemingly bottomless hole has been discovered in Mr. Webster's lot on Front street. Large stones, on being thrown in, sink from view. Our local "scientists" have been puzzling themselves all day over the phenomenon.

The fight between Mr. Sam Greer and the C.P.R. has advanced another stage. The company obtained an injunction from one of the judges rsstraining Mr. Greer from interfering with the telegraph line across the Vancouver property to which he claims ownership. The injunction, we understand, has been quashed by the full court, and Greer immediately proceeded to cut down the telegraph poles.

(Guardian.)

Weather good for the growing crops—occasional showers The river continues high and fish continue plentiful.

Sportsmen can have good exercise for their guns in the environs of Port Moody: bears and cougars have been observed within the last week.

The canneries are all on the *qui vive*, and great exertions are being made to secure the requisite Indian and white help which will be required in a few days.

[Herald.]

James Harrison, formerly book keeper for Onderdonk during the construction of the Pacific division of the C, P. R., died at the Sunnyside hotel of apoplexy.

BARKERVILLE NOTES.

(Correspondence of THE COLONIST.)

Our school closed for the holidays on the 17th. The examination showed that faithful work on the part of the teacher had been done during the year. The recitations of the children in all the subjects of the course being excellent. In mental arithmetic the answers of the smallest pupils examined were given with wonderful promptitude and accuracy. There was a very marked improvement in writing and some very creditable specimens of drawing were exhibited. The monotony of the regular examination was agreeably relieved by the singing of the children and declamations. In "speaking pieces" there was perhaps some weakness; but as this is no necessary part of a common school education and is more for show than service, nothing more need be said. A solid, practical training is of more value than any amount of glitter and show.

Mr. Stone was elected school trustee on the 20th without opposition.

The hospital board election passed off quietly—the old members for Barkerville and Quesnelle having been re-elected without opposition and Mr. Joseph Denny for Stanley, in place of Mr. McDermott. It is expected that the patients will be removed to the new hospital building next month.

The China Masons' hall had a scorching by fire on the 24th and a very narrow escape from destruction. Had it not been for our excellent water works and the promptness of the fire company and citizens there might have been a serious conflagration.

News has just been received that Mr. Gregg, of Harvey creek, a well-known pioneer, has committed suicide by hanging. V.

June 24th, 1887.

ST. LOUIS COLLEGE.

Midsummer Examination, Distribution of Prizes, etc.

The midsummer examination of the classes in the above establishment took place yesterday. About eighty pupils were present and presented a fine, healthy appearance, being very neatly attired. The Very Rev. Father Jonckau conducted the examination, assisted by the teachers. The several questions in the different branches were answered with quickness and accuracy, showing the result of painstaking and careful training. At the close, Mr. Paul Kamiya, a Japanese student of but one year, read an English paper of his own composition to the school, which was considered a very happy effort, evincing careful study on his part to master the language so well in so short a time.

Father Jonckau addressed words of praise to the pupils for the creditable way they had acquitted themselves, expressing regret at parting with the services of Mr. Macdonald. He informed them that the college would re-open on the 16th of August, when a new teacher, another Mr. Macdonald from P. E. Island, would succeed to the vacancy made to-day. The new teacher had an experience of nine years and possessed the highest testimonials. St. Louis college would consequently re-open with every prospect for a bright future. He hoped the boys would enjoy the holidays and to commence them he invited them to a great picnic to Goldstream to-day, to leave the college at 8 a. m. on board the 'bus "Young America."

Following is the list of prizes, standing, etc., names being in order of merit:

SENIOR DEPARTMENT.

LIST OF PRIZES.

Proficiency—J. Farrell, A. Astrico and Geo. Clarke.
Deportment—Ph. Godfrey, J. Farrell, P. Murphy.

WHAT SOME PEOPLE SAY.

That there is sure to be a great demand for SAVORY'S CIDER at the jubilee sports and picnics; those catering to the public should provide accordingly. No luncheon basket complete without it. *1m

That it is reported that Mr. Wm. Ewart, M.P. for North Belfast, will receive a baronetcy, and that the mayor of Belfast will be knighted.

That SAVORY'S CIDER is the best in the market—took first prize at the Victoria Exhibition, 1886—is pure and unadulterated. In pints and quarts. It is first-class for picnics and excursions. Prices to be had of the makers or Messrs. Bossi & Giesseleman. 1m

That the finest assortment of fishing rods and tackle in the province is at J. Barnsley's, Fort street, near Douglas, just received via the C. P. R. tf

A LARGE assortment of photographs of British Columbia at Jamieson's. *

Per Year, (Postage Free to any part of the Dominion or United States.....$ 2 00
Six Months..... 1 25
Three Months..... 75

Subscriptions in all cases are payable strictly in ADVANCE.

NEW WARD SCHOOL.

The government having selected a site for the new ward school, the work of building will, we understand, be commenced without delay. The site comprises three lots, forming a square, on the corner of Chambers and Stelly streets, and is admirably situated for the purpose. This will constitute the fourth ward school in our city.

GRATIFYING IMPROVEMENT.

We understand that the Minister of Finance has succeeded in realizing what is equivalent to par for the $1,000,000 loan, bearing interest at the rate of four and a half per cent. This result would certainly indicate a gratifying improvement in the credit of the province. Ten years ago the three-quarters of a million loan did not bring par, notwithstanding that it bore six per cent. interest.

HURRAH FOR CARIBOO!

Old Cariboo is unmistabably and most decidedly looking up. Writing under date of June 16th, the gold commissioner gives a very encouraging account. On the Island Mountain active work is going on, fifty men being employed. The B.C. M.&.M. company have struck the "Bonanza Lode" in their tunnel, on the "American" location. A splendid lode, from which gold can be pounded, has just been found in the old "Black Jack" claim, about five feet in width. Recording is going on briskly and locations are being taken up every day. The season is favorable for hydraulic mining and every person is now busy. There is more life to be seen in old Cariboo now than for many years.

HUDSON'S BAY COMPANY.

The annual meeting of the Hudson's Bay company was held in London on Tuesday last, when the governor and committee submitted the usual report to the proprietors, together with the accounts for the year ending May 31st, 1886. In his report the governor states that the fur trade and general trade profits for the year in question amounted to $609,800, of which the sum of $153,500 is payable to the officers of the company under the terms of the deed poll. The net profits for the year amount to $428,875, to which has to be added $160,615 brought forward from the previous year, making a total undivided balance of $589,490, out of which a dividend of $4.25 per share is recommended, leaving the sum of $164,490 to be carried forward to the next account. The company's claims on the Dominion government for losses sustained during the recent rebellion in the Northwest are expected to be fully settled at an early date. The governor adds that satisfactory progress is being made in improving the mode of conducting the company's trade under the altered circumstances of the country, and that the prospects of the gradual realization of the company's landed property are regarded as encouraging.

UNFAIR TREATMENT.

It cannot be denied that British Columbia has been scurvily treated by the Dominion government during the past session of the house. In the hour of their need we sent them a solid delegation of six members pledged to lend the administration a general support. In one of the divisions in the commons the government had only a majority of 19, so that it must be conceded the support of our representatives is an important factor in their retention in power, the more especially since Manitoba is fighting the bitter question of disallowance which threatens to become a burning one. Our young province is just entering upon the threshold of a vigorous manhood which, however, needs adventitious aids to make it successful. The country must, through the medium of railroads, be opened up for settlement, easy access must be had to our mines and a disposition shown on the part of the federal parliament to advance in so far as it can, the interests of this promising province. We bolstered ourselves up with the fond hope that in recognition, at least, of our loyalty to Sir John Macdonald and the party of which he is the head, some scant measure of justice, hitherto denied, would be meted out to us. What do we find? Our great provincial demand was a subsidy for the Shuswap & Okanagon railway, a road only some fifty miles in length which would, if built, open up our vast interior resources of agriculture and lumbering and mining, and have done incalculable service to the entire province. This road has been most favorably reported on and promises to be a great feeder to the Canadian Pacific railway—this latter the strongest argument one would suppose, judging from recent results, to open the purse strings of the government. There is not a cent in the estimates in aid of this much needed work, notwithstanding the entreaties of our representatives and the efforts of our citizens who have a stake in the future of the province; nothing for British Columbia railways but $369,600 for Ontario; $1,150,800 for disaffected Quebec; $273,200 for New Brunswick and $195,200 for the province of repeal, Nova Scotia. A pretty showing truly! Here is a province which has always proved loyal to the government and which cannot secure a paltry subsidy for an urgently needed railroad! What is there on the estimates for British Columbia this year? Absolutely nothing. The work of improving Victoria Harbor has gone over for another year, when Sir Hector will "bob up serenely" with another excuse as patent as that which he, a few days ago, was pleased to deliver. It is all very well for writers in the press to talk about us "helping ourselves"—we have been doing that too long. We find the little Island of Prince Edward, which we could stow away in one of our back yards receiving an additional subsidy of $20,000 a year, presumably because she sent six men to *oppose* the government; we find that Quebec has to be kept in the traces by being well fed with pap, while this province which has never failed in its allegiance to Sir John goes empty-handed. And this is gratitude! We have no fault to find with our representatives; they have done all that men could, and we have no doubt they will return home disgusted at the apathy displayed by the administration in its dealings with this province. A fog horn at Plumper's Pass, the pulling of several snags out of our rivers, the expenditure of a few thousand dollars, will not blind us to the fact that we have received shabby treatment. A subsidy should have been granted to the Shuswap & Okanagon railway; an appropriation should have been placed on the estimates for Victoria Harbor, and many necessary improvements should have been made on the island, on the mainland and in the interior. The government shows a great lack of wisdom, not to say of common gratitude, in its dealings with this long-neglected province, and may wake up some day to find that it has reaped where it has sown.

COLONIAL SECURITIES.

The latest of a series of articles published in the London *Economist*, on the subject of the growth of the British colonies, deals with British investments in colonial securities. It is impossible, of course, to give anything but an approximate estimate of the amount of such investments, but the *Economist* has in the present instance extended its elaborate calculations made in 1883. At that time it estimated the total investments of British capital in colonial securities at £620,000,000, upon which the mother country drew £30,600,000 in interest, or nearly five per cent. upon the entire amount. Of the total thus invested about £262,000,000 was estimated to be owing by colonial governments to the mother country, which figure is now extended to £331,000,000. Of the increase no less than £45,000,000 has been borrowed by Australasia.

From a table classifying the investments according to their character, and dividing them among the colonies in which they have been made, we take the following interesting figures: British investments on government loans amount in Australasia to £150,000,000, drawing £6,311,000 interest, and in Canada to £35,000,000, drawing £1,400,000 interest. Investments on railway, provincial, city, harbor, gas securities, etc., amount in Australasia to £11,000,000, drawing £566,000 interest, and in Canada to £65,000,000, drawing £2,275,000 interest. Investments on banking, mortgage and agency companies amount in Australasia to £60,000,000, drawing £4,200,000 interest, and in Canada to £10,000,000, drawing £600,000 interest. Other investments in Australasia are estimated at £60,000,000, drawing £2,850,000 interest, and in Canada at £25,000,000, drawing £1,000,000 interest. The total for Australasia, therefore, is £281,000,000, drawing £13,927,000 interest, and for Canada £135,000,000, drawing £5,275,000 interest. The grand total for all the colonies is £744,000,000, drawing £34,709,000 interest. Of the increase since 1883 Australasia has taken nearly two-thirds. In India the annual payment of interest to home investors is only about 6d. per head; in Canada it is calculated to be £1 2s. 6d. per head; in New South Wales about £3 14s., and in New Zealand about £5 per head. The grand total given above is enormous, and according to the *Economist*, exceeds the mother country's foreign investments. At the same time it is not complete, for it does not show the entire amount of joint stock capital embarked in colonial enterprise. It would not be surprising, we are told, to learn that the aggregate of such securities raised in, or for, the colonies reached £1,000,000,000. The total given above, however, is the main external liability of the colonies. There are in addition large amounts of home capital sunk in private colonial investments of which no estimate is attempted. While the amount has largely increased since 1883, the annual rate of interest has sunk from 4½ to 4 per cent. This reduction is due in part to improved credit, and in part to depression of trade. In another article the *Economist* proposes to contrast these liabilities with the assets of the colonies.

THE islands of the Pacific ocean will never cease to be the source of wonder and amazement. No one can tell their number, and there is reason to believe that this number, whatever it may be, is constantly changing. A short time since two large islands were discovered in the South Pacific, and, according to the London *Times*, another has just been found less than a hundred miles from the northern coast of New Guinea. This island is described as three miles long and some two hundred feet above the sea level. It has been named Allison island. It is said to have an abundance of timber and the richest small vegetation. This locality has become famous for the discovery of new islands. Within a few years several considerable extents of fertile and inhabited land have been found not more three hundred miles from New Guinea, and as there is still plenty of room on the great ocean which has not been thoroughly explored, it is probable that many more will yet be discovered. To one who has not sailed upon its broad extent the best maps of the Pacific are very unsatisfactory. The extent of water surface is so vast that the largest map will make all the islands seem much nearer together than is really the case. In our geographies the Pacific appears to be fairly studded with islands. But in most of these regions a vessel might sail for days and weeks without once coming in sight of land. A gentleman who has recently done considerable cruising in the south seas believes that there are still many islands which have never been visited by white men. Captains of trading vessels often come across hitherto unknown islands, and establish a trade with the inhabitants without letting the matter become generally known. When the Woodlark islands were recently explored and mapped out, it became evident that a certain Australian firm knew all about them, and while driving a profitable trade with their people, had succeeded in keeping the discovery a profound secret.

BUILDING railroads in China is an old theme. Circumstantial details have appeared from time to time with accounts of concessions obtained and with predictions as to the time when that country would be covered with a network of rails. The latest account is given in the London *Colliery Guardian*, based on news from Pekin which declares positively that China is at last to have railways. The report is that the Chinese court has advised the empress to order the construction of a railroad from Kaiping to Takoo, the port of Tientsin, and a line from Takoo to Tientsin. It is considered probable that the coal mines in the vicinity of Pekin will be connected with the city by rail, thus permitting the cost of coal to be cheapened. The building of these roads, and possibly others, is looked upon by British iron and steel manufacturers as likely to open a large field for British goods of this character.

SOME facts in regard to a telephone which is being tried in Europe are given in the London *Times*. The description shows the new telephone to have some advantages over those generally used. It is of very small size and in appearance resembles as nearly as can be described a shield covering the button of an electric bell. Merely touching it summons some one on the other end of the wire. In order to converse, the shield, which forms the receiver and is attached to the instrument by a wire of any desired length, is removed from the wall and applied to the ear. The part exposed is a disc of carbon, and any sound uttered at or near it is plainly conveyed to the receiver. The persons conversing may each be one yard away from the instrument and yet make their voices plainly heard, while the battery power needed is no greater than that used in working electric bells. The cost is small, and application universal. This telephone was used in transmitting messages from Brussels to Paris last March. It is said that the forts about Paris are connected with each other by this telephone.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitudes of low test, short-weight alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 107 Wall Street, New York. jan15 1y

SPORT FOR THE RICH.

The Growing Popularity of Yachting in the East.

Yachting is growing to be the sport *par excellence* of the idle rich. It has that unspeakable charm of exclusiveness, owing to its ruinous expense. More new vessels have been ordered this season than ever before, but there is not a disposition to build steam yachts. They are not so expensive as to tax the resources of the wealthy—for New York contains a surprisingly large number who are really embarrassed by the sheer amount of their money—but the incidents of life in them are unpleasant. The noise and smell are the same as those of a steamer. The discipline, with so much machinery to manage, is extremely straight. The possession of a steam yacht is said by those who own such craft to be a fact which puts its proprietor under a sense of obligation to make long and out-of-the-way voyages, whether he wants to do so or not, else he will incur the imputation of not being like Captain de Merrimac, "a sad dog," or his vessel will be rated unsafe or unmanageable.

RICH AND POOR.

Great Wealth Among the London Jews a Myth.

Our recent paper on Jewish pauperism showed the existence of so enormous a disproportion of poverty in the Jewish community of the metropolis that it becomes interesting to inquire whether this is balanced by any corresponding excess of wealth among the upper and well to do class of London Jews. By way of contrast a few figures bearing upon the incomes of the richer members of the Hebrew community will prove, on being compared with statistics referring to the United Kingdom at large, that public opinion is not altogether wrong in crediting the Jews with an amount of wealth larger by a good deal than is their due, and what is perhaps more to the purpose, a proportion of rich families far and away beyond anything that is found among Gentiles. The preponderance of poor at one end is seen to be more than balanced by an excess of wealth at the other end of Jewish social scale, so that, if there are very many poor Jews, there are very many rich ones to make up for it.

A STRANGE CASE.

Recently while F. B. Phelps was going through the swamp at Mulberry a large bird flew out of a tree overhead. He immediately threw up his gun and fired at it, breaking one wing. Upon going up to it, he saw it was a new bird to him, and one of the most savage creatures he ever saw among the bird family. He thinks it belongs to the owl famils, as its head is large, with tremendous black eyes that almost snap fire as it looks at any one. Its claws are also very large, but have no feathers or hair on them, like the ordinary owl. Its face looked like a monkey's with white cheeks and a black streak over each eye. The rest of the head inclined to gray with black dots near the end of each feather. The body was covered with a beautiful plumage, unlike any other bird he knew of. Whenever he went near it it would give a most unearthly yell that even frightened the dogs. It whipped out every dog on the place. He searched Audubon's works, but failed to find any bird like it, and he is at a loss to know what it is.

FRENCH CAPITAL CONSUMPTION.

Some interesting figures with regard to the consumption of food in Paris have recently been published in France, from which we take the following details: It appears that in the year 1885 no less than 303,874 oxen, 188,595 calves, 1,979,538 sheep, and 352,904 pigs were killed at Paris. Adding to this the 7,662,412 pounds of horse flesh which was sold for food, 157 pounds of meat is the average consumption of each inhabitant. The largest number of cattle came from the provinces, and the rest was supplied by Germany, Switzerland and Austria-Hungary. Besides this an average of 9 pounds of tongues, livers, kidneys, calves' heads, 23 pounds of fish, 22 pounds of poultry and 7 pounds of oysters per inhabitant has to be added to the consumption of meat. It will appear strange that the average of 7 pounds of oysters falls on each inhabitant of Paris, the more so as the poorer classes contribute largely to raise the average. It is stated that the oyster for which there is the greatest demand at Paris is that known as the Portuguese oyster, the flavor of which has been improved by some new experiment in the growth of oysters.

Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Astema, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada. dw

A Living Miracle.

"My infant daughter was taken ill with cholera infantum, the doctor said she could not live. The Reverend Wm. McWilliams would not allow her head to be lifted when he baptized her, she was so weak. Dr. Fowler's Wild Strawberry gave immediate relief. She is a living miracle, hale and hearty. Since that time (7 years) our house has never been without that remedy." * * * From statement of George Johnston, Harwood, Ont. tu-th-sat-dw

A Business Letter.

T. Milburn & Co.,
Tilsonburg, March 15th, 1887.

Sirs,—Please ship at once three dozen B. B. Bitters. Best selling medicine in the shop. Sold seven bottles to-day. Yours truly, C. Thompson.

The above sample is but one of hundreds of similar expressions regarding the popularity of B. B. B. tu-th-sat-dw

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from the teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other. d&w

Nature Makes no Mistakes.

Nature's own remedy for bowel complaints, cholera morbus, cholic, cramps, vomiting, sea sickness, cholera infantum, diarrhœa, dysentery, and all diseases of a like nature belonging to the summer season, is Dr. Fowler's extract of Wild Strawberry, which can be obtained of all dealers in medicine. tu-th-sat-dw

ST. JACOBS OIL

THE GREAT GERMAN REMEDY WILL SURELY CONQUER PAIN!

PAIN-CONQUEROR.

The Most Efficacious in the World,

Superintendent O'Neil, of the Dominion Police, Ottawa: I kept that wonderful medicine, St. Jacobs Oil, both at my home and office, and esteem it, without any exception, the most efficacious remedy in the world.

Rheumatism Cured.

Toronto, Ontario, March 8, 1887.

As a household remedy I find St Jacobs Oil invaluable, and I have no hesitation in recommending it as a panacea for rheumatism, neuralgia and kindred complaints. I always keep a bottle on hand.

JAS. BRANDON, Ex-Alderman.

A Governm nt Minister's Opinion.

Mr. Bowells, Minister of Customs, Canada, says: A member of my family used St Jacobs Oil, and found it efficacious. I think it good.

Greatest Ever Introduced.

Mr. John Taylor, Taylor, Bros. & Co., 36 Market St., Toronto, Ont. St Jacobs Oil is an excellent remedy; one of the greatest things ever introduced into Canada.

What Thousands Say.

Mr. J. A. Simmers, German Consul, Toronto, Canada: I say, with thousands of others, that St. Jacobs Oil cannot be surpassed.

Lame Leg—Cured.

Mulgrewa, Ontario, February 7, 1887.

I have used St. Jacobs Oil for years, and have always found it an excellent remedy. My son had a lame leg for about one year. I applied St. Jacobs Oil and in about one week he could walk again. I recommend it wherever I can.

CARL ABRAHAM.

ST. JACOBS OIL is an absolute cure for all bodily pains for which an external remedy, may be applied. It never fails. It acts like magic, and a trial of it has convinced the most incredulous. It is sold by Chemists and Dealers in Medicine, throughout the Dominion of Canada. Price fifty cents per bottle. The Charles A. Vogeler Co., Baltimore, Md., U. S. A. Canad ian Branch, 84 York Street Toronto, Canada.

New and Second-Hand

CLOTHING BOUGHT AND SOLD.—Highest cash price paid for *Superfluous and Castoff Garments, Blankets and Overcoats.* TRAVELERS having a superfluity of clothing can sell them for cash to N. POINTER, Johnson st., near Broad.*

What is It?

That produces that beautiful soft complexion and leaves no traces of its application or injurious affects? The answer, Wisdom's Robertine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matchless. D. E. Campbell-agent, corner Fort and Douglas streets, Victoira. *

Japanese Paper Napkins.

Cheaper than washing and just the thing for picnics. Next door to the postoffice. B. C. Stationery Co. *

LOCAL AND PROVINCIAL.

Liberal Nomination.

The Liberals of Digby, N. S., have nominated Mr. Robichean for the commons.

Another M. P. Dead.

F. X. Cimon, M. P. for Chicoutimi, died suddenly at Murray Bay of an epilectic fit.

Dominion Day Salute.

The members of No. 4 battery B. C. G. A., will fire a salute of twenty-one guns on Friday at 12:30 o'clock p.m.

Bridge Across the Arm.

Plans for the structure across the Arm to be built by Mr. Dunsmuir will be completed to-day, when they will be forwarded to Ottawa for approval.

Presentation.

Rev. Mr. and Mrs. Seccombe were presented with an address and $24 on leaving Maple Ridge. A pleasant evening was spent at the reverend gentleman's residence.

The Forest Fair.

The ladies of St. John's church have definitely decided on July 13th and 14th for the holding of their forest fair and paper carnival. An event unique and pretty is promised.

Obstructive.

An individual rejoicing in the patronism of "Mob" having absorbed too great a supply of ozone, tried to relieve his pent up feeling by obstructing the customs officers on the arrival of the Sound steamer yesterday, and had to be ejected bodily from the examining shed.

Basket Picnic.

The farmers of North and South Saanich will hold their annual basket picnic at Sandhill Creek on the 1st inst. The Queen City orchestra will be in attendance and all friends and visitors are invited to be present. A jubilee time is in store for all. *

Steamship Subsidies.

The British government is considering an offer by which a subsidy of £50,000 yearly will secure three lines of first-class steamers on the Trans-Canadian route to the east, one line to connect Liverpool and Halifax, and the other two to connect the Pacific terminus of the Canadian Pacific railway with Australia.

Matrimonial.

Mr. E. B. Paul, M.A., principal of the Nanaimo high school, was married on Saturday last to Georgina Augusta Maude, youngest daughter of the late Samuel Brethour, of Saanich, and sister-in-law of Mr. B. H. Smith, collector of customs, Nanaimo. The interesting ceremony was performed by the Rev. J. B. Good, at the residence of Mr. Smith.

After a Boodler.

The Lawson Detective Agency of San Francisco has two detectives here. They came up on the last steamer, and since their arrival they have been working night and day on some mysterious case. They are on a still hunt, but it is whispered that their game is handy and that the fugitive's short accounts need an explanation. The detectives are evidently waiting for their man to cross over to United States soil.

The Right to Seal.

The collector of customs at Sitka, Alaska, recently submitted to the U. S. Treasury department the question submitted by a resident of Kodiak, whether he can lawfully engage with a schooner and crew in killing seals in Alaskan waters not near the Pribylov islands. Assistant Secretary Maynard informs the Collector that inasmuch as section 1356 of the revised statutes prohibits the killing of any fur seals within the limits of Alaska territory or in "the waters thereof," (except by the lessees under the special law) the question must be answered in the negative.

The Salmon Pack.

An immense salmon pack is anticipated by the Alaska canners and preparations are being made on a large scale for the season's work. No improvement is visible in the condition of affairs on the Sacramento river, and the pack is regarded as a failure. At Astoria and all salmon-canning points along the Columbia river the "take" has been only fairly successful, but there is yet time for the canners to regain their ground before the season shall close. The British Columbia packers are hopeful of an average pack.

The Wash-Out.

The Calgary *Tribune* speaking of the recent wash-out, says: There was a very bad wash-out at Beaver Station, twelve miles west of here, on Wednesday night. Quartz Creek making a new channel for itself, carried destruction before it. About 300 feet of the track to the engine house and 150 feet of the main line were washed away, and at one time the water threatened to do the same with the C. P. R. station house. On Thursday, passengers, baggage and mails had to be transferred at this place, the west-bound train having been detained eight hours and the east-bound one hour. A culvert a few miles west of Beaver was also damaged a little on Thursday by the heavy flood of water from the mountains.

Dominion Lands.

When the item of expense in connection with Dominion lands came up in the Commons Sir Richard Car wright said he noticed a considerable increase in it, which was already large enough. Hon. T. White said in reply: In British Columbia, we have dispensed with the service of Mr. Trutch who, for some time, acted as agent, and Mr. Aikman, who was formerly classed as a clerk, is now agent at New Westminster and a member of the Land Board. For some years past the amount estimated has never filled the amount expended and the deputy thought it was better this year to put into the estimates what he intended to spend.

Naval Race.

The race between crews of H. M. S. Triumph and H. M. S. Conquest took place in Esquimalt harbor Tuesday evening. The course was the usual one, around Magazine island and return. A good start was made, both crews rowing about 30 to the minute. The Conquest's boat gradually forged ahead from the start and maintained the lead all the way down the course and past the turn. Once around the island the flagship's men laid to their oars in gallant style and, foot by foot, commenced to overhaul their opponents, and when half the home stretch had been covered the two boats were abreast of each other. Having husbanded their wind on the up stretch, the Triumph's men were now able to make a spurt, which placed them in the lead. This advantage they gradually increased and swept past the "winning post" about eight boat lengths ahead of the other crew. Both crews were in excellent form and displayed remarkable staying powers, the stroke at the finish being but two short of what it was at the start. Following are the names of the winning crew: Antonio Almanoza, A. Warrener, C. Eades, P. Coughlan, Berry, Watkins, Doyle, Sparshot, Beare, Hughes, Clayton, Allanay, R. Wright, coxswain.

Temperance Demonstration.

The temperance organizations are to test their strength by a mammoth demonstration.

To Disband.

It is probable the Montreal garrison artillery, the finest corps in the city, will disband. Col. Oswald has resigned and all the other officers will follow. This is owing to some dispute with the Ottawa authorities.

Got a Pass.

The Toronto *Mail* says: "It is stated on good authority that on the morning of the day on which the vote on Watson's disallowance motion was taken several members of the house of commons received letters, enclosing each a yearly pass on the Canadian Pacific."

The Conquest.

The information contained in our leading article yesterday morning concerning the Conquest sailing for Honolulu *under secret orders from the Foreign Office*, was not obtained from the naval authorities here but from other sources outside the province. The ship sailed to-day.

"A Mountain Road."

At the exhibition of the Ontario Society of Artists, one of the pictures is spoken of as follows: "Mr. L. R. O'Brien's masterly work, 'A Portage on the Peribouka' is executed in his usually bold and vigorous style. It shows a waterfall and rapid, with figures and canoes in the foreground well grouped. This is a good specimen of his style, and well serves to keep up his reputation as one of the leading water-colorists of America. It has been presented by the artist to the Canadian Club of New York. Of his three other exhibits—scenes in British Columbia—No. 166, 'A Mountain Road,' will be a general favorite. The entire absence of body color in this artist's works greatly assists in maintaining the clearness and transparency which are among the chief beauties of this branch of art.

Off for Kootenay.

Calgary *Tribune*: About noon to-day a special train arrived from the east, having on board Major Steele and his detachment of police, bound for the Kootenay district, B.C. They go by train to Golden City, where they take their horses and travel on horseback up the Columbia on the old pack trail about 175 miles to their destination. The officers are Major Steele, Inspectors Wood and Huot, and the Non-Coms. are Sergeant Major Lake, Quartermaster Sergeant Fane, Sergeants Mercer, Sinclair, Roby, Allen, Monjeau, and Corporals Jones, Quelch, Hayne, Waite, McDonell and fifty men. They will remain in the district all summer and next winter. Among the old familiar faces were Fane, Jones, Jack Walters, E. Percival and Tom Craig.

Mr. Percival's Case.

In the New Brunswick conference the committee on the Milltown matter reported that having considered the matter of the financial relations of Mr. Percival to this conference to the trustees of the Milltown property, left by the late Abney Hill, advise the conference not to take any further action in the matter; consider the responsibility of any further action in the case devolves upon the trustees of the estate appointed by the will of the late Abner Hill. The request was adopted.

[Rev. Mr. Percival, at the last session of the British Columbia conference a short time ago, resigned his connexion with the Methodist church and is out of reach of the conference. The charge made against him in New Brunswick, referred to above, was thrown out by the Newfoundland and British Columbia conferences, they upholding him in the stand he took.]

American Law Review.

We have to thank the publishers for the current number of the *American Law Review*, which contains much interesting matter. The place of honor is given to an article on "The Canadian Fisheries Question," by Mr. A. H. Marsh, of Toronto, one of the law partners of Sir John Macdonald, who presents from the standpoint of international law our view or contention respecting the question now in dispute between the two countries. Our contention being summed up in a line: We stand upon the Convention of 1818. Another article being, "An Open Letter to Senator Morrow," by Charles L. Woodbury, a prominent Boston jurist, gives the American, or, at least, the New England side of the question. Each is admirably clear and lucid and will be worth careful study by all who wish to become familiar with the *pros* and *cons* of this pretty "kettle of fish." The *Review* on the whole is up to the usual standard and a valuable contribution to the legal lore of the time.

Presentation.

A very pleasant event took place at St. Louis College yesterday, when Mr. R. F. McDonald, one of the teachers, was presented with an elegant ebony cane surmounted with a solid gold head, the latter bearing the inscription: "To R. F. McDonald, Esq., by the pupils of St. Louis College, Victoria, B. C., June 29, 1887." Mr. McDonald was treated to a genuine surprise, and found it difficult to sufficiently express his thanks for the honor done him. Accompanying the present was a felicitous address which appears in another column. The cane was from Lange's, the inscription being the work of Crowther. Rev. Father Van Nevel also made a valuable present to Mr. and Mrs. McDonald, an elaborate and costly lambrequin. Mr. McDonald, to the regret of his many friends, leaves in a few weeks for his old home in Prince Edward Island, where he expects to reside permanently. He will be followed by the heartiest wishes for his continued success. Yesterday's presentation speaks more expressively for his worth than any words of ours.

Esquimalt Blue Ribbon Club.

The Blue Ribbon club of Esquimalt were honored last evening by a visit from a large number of the members of the Blue Ribbon club of Victoria, including amongst their number the president, Mr. S. Gray. The meeting was opened by singing the hymn "Light in darkness," followed by prayer. Mr. Gray then gave one of his usual earnest and soul-stirring temperance addresses, preceded by an address by Mr. McNeven, vice president. Mr. Chapman gave an interesting recitation. A duett by Mrs. Wright and Miss Dobbs was rendered in a very pleasing manner and received a well deserved *encore*. Mr. Tucker, H. M. S. Triumph, recited "The Husband's Vow," an affecting piece. The Misses Bunting sang a duett in a very sweet manner and as a consequence received an *encore*. Mr. Webb, H. M. S. Cormorant, gave a song, which was well received. A recitation by Miss Eagle was finely rendered. Miss Dobbs then sang a very humorous song, "Modern Inventions," which fairly convulsed the audience. Mr. Quick gave a song, when Mr. Gray sang his favorite song "Three Acres and a Cow," which brought a very pleasant evening to a close. The success of the evening was very largely due to the able accompaniment of Miss Hendricks.

FROM THE MINES.

Arrival of Sheriff Rogers—He Reports Good News From Barkerville—Water Plentiful and Placer Mining Booming—Progress of the Quartz Industry.

Sheriff Rogers, of Barkerville, arrived down last night and is at the Oriental. The sheriff stated to a COLONIST representative that the prospects for Cariboo have not looked so bright for many years. The snow-fall in the mountains has been the greatest ever known, and the wagon road is still covered with four feet of snow between Barkerville and Stanley and the new road is altogether used. The snow-fall has proved a most fortunate thing for the placer miners, the water for hydraulic purposes being in great plenty, and will probably last throughout the whole season. All the claims on Williams' and branch creeks and on Mosquito creek are in full swing, and a handsome profit for the season's work is looked for.

Quartz mining is also booming. The Island Mountain ledge is being actively worked under the superintendance of Mr. Jas. Champion. About forty men are engaged in trenching and in removing buildings and mill to the new site at Jack of Clubs lake. A tunnel has been run in about three hundred feet below the one drifted last winter, and a little above the level of the lake. The ledge was again struck in a magnificent body of ore.

The B. C. M. & M. company are also actively at work running their tunnels under Mr. Crib's superintendence. Sheriff Rogers pronounces the Bonanza a grand ledge. There can be no doubt about its extent. All that is necessary is to get the machinery in order to crush the ore and take out gold.

Many new ledges are constantly being located and records at the gold commissioner's office daily increase. A number of men are also at work on Burns mountain. Quartz prospects are very bright, and when gold is produced in paying quantities there is nothing that can prevent the rapid development of Cariboo.

Hiscon creek is also progressing favorably. The immense body of quartz is still being worked and a mine of wonderful extent is now proved.

Good reports have been received from Harvey, Keithley, and Snowshoe creeks. A casual report reached Barkerville in regard to Goat river, the diggings discovered last year east seventy miles. It was to the effect that two men had been met going to a point for supplies, having a considerable quantity of gold in their possession. The government trail is being cut to Goat river as fast as possible.

The health of the mining town is good and nothing startling to report, except the melancholy suicide of Mr. Gregg at Harvey creek. No cause can be assigned for the rash act.

Sheriff Rogers will remain for some time in Victoria, whither he has come to purchase goods.

PERSONAL.

Senator Miller is *en route* to this coast.

Dr. and Mrs. Godfrey, Montreal are registered at the Driard.

E. B. Marvin and T. C. Shaw returned from the mainland last night.

The Marquis and Marchioness of Huntley are passengers by the Parthia from Hong Kong.

Rev. Dr. Cochrane, of Brantford, Ont., arrived last night on the Yosemite and is at the Driard.

Sir Richard Musgrave and Jos. Boscowitz returned from England last night *via* the C. P. R.

I. Oppenheimer and family left for Vancouver this morning, which they make their permanent home.

S. B. Willey, comptroller of the O. R. & N. Co., arrived in the city with his wife yesterday and is at the Driard.

Hon. Mr. Thompson, minister of justice, after visiting Halifax will visit Manitoba, the Northwest and this province.

J. J. Byrne, general passenger and ticket agent of the O. R. & N. Co., has resigned, the resignation to take effect July 1st. He will leave for New York in a few days. Mr. A. L. Maxwell, for the past seven years ticket agent of the O. R. & N. Co. at Portland, will temporarily succeed Mr. Byrne as general passenger and ticket agent.

Mercier's Move.

Premier Mercier and four members of the local cabinet have gone to Murray Bay to interview Governor Masson. It is believed they will ask him not to resign.

Harrison Springs Notes.

His honor the lieutenant-governor is improving so rapidly at the Harrison Hot Springs that he can now take long walks without fatigue, and can often be seen rowing a boat with all the vigor of a youth of 20.

The high water, which threatened at one time to flood the bath-house, has at last commenced to recede and everything is again as before.

Visitors are constantly coming and going, while marvellous cures are the order of the day.

Artillery Competition.

The following is the result of the firing by No. 2 Battery, on Tuesday afternoon, for the trophy presented by Major Prior:

FIRST PRACTICE.

1.	Sergt. Sargison	6
2.	Sergt. Denman	12
3.	Gunner Langley	10
4.	Corporal Drake	14
5.	Corporal Worsfold	10
6.	Gunner Holland	7
7.	Gunner Walker	5
8.	Gunner Fennelly	15
		— 79

SECOND PRACTICE.

1.	Gunner Fennelly	6
2.	Corporal Drake	13
3.	Sergt. Denman	10
4.	Gunner Langley	7
		— 36
	Total	115

In the above nearly all the marks were awarded for direction and elevation, no less than three boards being destroyed.

As the smallness of the score in the second practice throws No. 2 out of the competition, the bugle will become the property of one of the other batteries. The difficulty in the present case evidently lies in the boring of the fuses of the Schrapnel shell, each man having to bore his own in the second practice. Several exceedingly good shots were made, particularly one by Gunner Holland, who hit the barrel fair and square and knocked it into lucifer matches.

JUBILEE numbers of London News and Graphic and Cassell's Magazine of Art, at Jamieson's. *

A VERY fine view of the city taken from the top of government buildings on sale at T. N. Hibben & Co.'s. *

CLOSING OUT Dry Goods at lowest cash prices at Brown & White's old store until July 15th. †

Miraculous.

"MY MIRACULOUS CURE was that I had suffered from kidney disease for about two years, was off work all that time. A friend told me af B.B.B., I tried it, and am happy to say that I was cured by two bottles." Wm. Tier, St. Mary's, Ont. tu-th-sat-dw

Every misery missed is a new mercy.

MUNICIPAL COUNCIL.

WEDNESDAY, June 29.

The regular weekly meeting of the city council was held last evening.

Present—His Worship Mayor Fell, and Couns. Grant, Styles, Braden, Pearse, Higgins, Vigelius, Coughlan and Barnard.

The minutes of the previous meeting were read and adopted.

COMMUNICATIONS.

From the city of Vancouver, extending an invitation to the mayor and council of Victoria to be present on the occasion of the celebration on Dominion Day; accepted.

THE ISLAND RAILWAY.

Mayor Fell stated that the result of the interview between the council and Mr. Dunsmuir, president of the road, regarding the bringing of the line into the city, was as stated in full in THE COLONIST.

Coun. Higgins moved, seconded by Coun. Grant,

Whereas the council has heard with pleasure the report of his worship the mayor, to the effect that Mr. Dunsmuir, president of the E. & N. railway company, has announced that it is the intention of the company to construct across the harbor of Victoria a railway, foot and vehicle swing bridge, which shall be free to the public for ever, and to bring the terminus of the said railway within the limits of the city of Victoria.

Be it therefore resolved that the thanks of the council be tendered to the railway company through Mr. Dunsmuir for their liberality, and that we are of opinion that the extension of the line to Victoria will confer a great boon on the citizens thereof.

Resolved, that a copy of this preamble and resolution be transmitted to the Dominion and provincial governments and to the president of the E. & N. railways.

From R. T. Williams asking permission to raise a building on Broad street; referred to the fire wardens and building inspector.

From eight residents of Erie street asking for an improvement of sidewalk; referred to street committee.

From Robt. Williams, calling attention to the dangerous condition of a poplar tree overhanging the sidewalk near James bay bridge. Referred to street committee.

From Mr. J. Jessop, urging that the city immediately decide in regard to the taking over of the Mechanics' Institute library. Referred to the city hall committee.

From the St. Andrew's and Caledonian society, asking use of Jumbo on the 4th July to run electric light. Request granted.

From ratepayers occupying stores in DeCosmos block, Government street, asking that something be done in regard to verandahs in front of Chinese stores, which were dangerous and unsightly. Referred to fire wardens with power to act.

From A. DeCosmos, requesting that the flow of filthy water across city lot 533, facing on Government street, be stopped, as it injured his property.

Coun. Grant in moving that the matter be referred to the street committee and city barrister to report, said that this grievance must sooner or later be settled, and it was a very fine point to decide.

Coun. Braden seconded, and said that it was his opinion that the matter would have soon to be settled.

ASSESSMENT ROLL.

The by-law respecting the municipal assessment roll, 1887, was read a second time.

Coun. Barnard asked if there was not a revision of the assessment roll ordered. There were many property-owners who were not paying a just rate, and he thought it highly desirable that a revision be made.

Coun. Braden also thought such revision should be made. There were real estate owners in this city who were parasites on the community, deriving the greatest benefit from other people's enterprise, and yet were not paying even a just proportion of taxes on their property.

Coun. Grant said that the work was too great for any committee of the council to undertake. It was revised year before last and was found to be a very extensive work. There was no order to have a revision made, it was for the printing of each man's assessment. The contractor for the work failed.

Coun. Higgins said that it was now too late for a revision.

Coun. Styles moved that each real estate taxpayer be notified of the amount of his taxes.

Several councillors thought such an action too laborious and unnecessary, as each ratepayer knew his last payment and only improvements were additionally taxed.

The bylaw passed its second reading.

ELECTRIC LIGHT.

The electric light committee reported against the renting of the city poles for the erection of other wires thereon. Report adopted.

A letter from Mr. McMicking in regard to proposed changes in the electric light system was read.

The report of the committee recommending the same was also read and, on motion, adopted.

STREET REPORT.

A report was read stating that when the property owners had paid into the treasury $500 subscribed by them for the opening of Church way, the latter would be completed so as to render it open for traffic. Report adopted.

WATER SUPPLY.

An additional report from Mr. A. Hendry and one from Mr. Mahood, C. E., on the water supply, were placed in the hands of the council.

Coun. Grant thought the reports should stand over in order that the councillors might peruse them carefully.

Coun. Coughlan asked who requested Mr. Mahood's report?

Coun. Grant said Mr. Mahood's report was put in at the request of Mr. Hendry. It was not at the expense of the council.

Coun. Pearse said that the reports could not be understood by a mere perusal at the board, and he would second their deferment for one week. If the council would not pay Mr. Mahood for his report he would. All that he desired was that the city should secure the best and most economical scheme of additional water supply. If they did not soon go ahead with the work they would be involved in a lawsuit, for the upper portion of the city was without water. He did not think any more facts were necessary. All that was now needed was that the reports already in be placed in the hands of a thoroughly competent engineer and his report be final. The reports should be published for the benefit of the public.

Coun. Braden did not understand the water committee but he must blame them for the present unsatisfactory state of things. He thought that there were too many superficial reports, and referred to the frequent reports that have been made. Mr. Bell had reported first, and, like others, on Mr. Hendry's figures, but afterwards, on a personal examination, had made a vastly different report, and if Mr. Mahood would examine for himself he also would discover his error. Mr. Buckley had recommended a new main, and that was the only possible way for securing a supply. They had been humbugged too long by the water committee and it was time something of a practical nature was done instead of acting in a childish manner.

Coun. Higgins said that he coincided with the last speaker to a certain extent. It had been six months now and nothing was done. Coun. Pearse had asked to hand the plan to some other engineer. He was literally tired of the delay, and the time would come in a very few days when a majority of the council must take this matter in hand and decide on one scheme or other. It was time to take the matter in hand and act vigorously.

Coun. Barnard favored that some action be taken on Mr. Bell's report. He suggested that the council meet next week and take final action on the question.

Mr. Hendry's report was then read to the council.

Coun. Grant said that the water committee was not to be blamed for the delay, as he could show by the records that they had time and again endeavored to push the work forward to completion but obstacles were placed in their way by others, who were now crying against the committee. The water committee had tried to carry out the water scheme as voted by the rate-payers.

His worship endeavored to make some remarks which were considered not relative to the question.

Coun. Higgins called his worship to order.

His worship contended that he was in order.

Coun. Higgins appealed from the decision of the chair.

A general misunderstanding ensued, in which several councillors endeavored to speak at the same time, after which Coun. Barnard moved that the council call a special meeting on Monday to take final action.

Coun. Higgins said that Monday was a holiday and several members of the council would be absent from the city.

Coun. Barnard—Yes, I believe his worship is going to spread himself in Tacoma.

His worship (to Coun. Barnard)—"Well, there's no danger of your spreading yourself much anywhere." (Laughter.)

The motion was lost amid another discussion which reverting back to Mr. Hendry's report it was formally received and the council adjourned.

THE SAILING RACE.

TO THE EDITOR:—Mr. Borde's letter, and some previous items supplied (I think) by him, render it necessary for somebody to state the plain facts to prevent the public being misled.

The jubilee celebration committee having ignored this class of sport, a few sailing-boat owners met on the 13th inst. and agreed to subscribe among themselves for a cup to be taken by the winning boat. Certain conditions having been thoroughly discussed and reduced into writing, were read over and agreed to by all present, including Mr. Borde, and were published the following morning in your news columns. One of those conditions was as follows: "The course from Behren Island lighthouse round Brotchie Ledge buoy, round a stake-boat off Albert Head, and back to Brotchie Ledge." At a subsequent meeting it was agreed that the stake-boat should be anchored a little inside the head opposite the quarantine buildings, to avoid the strong tide of the Head. Mr. Borde was again present. Unfortunately, the man whom we employed to place the stake-boat deputed some one else to do it, and took command of the racing boat which led the way round the stake-boat and was followed by Mr. Borde. All the other boats made for Albert Head as agreed, and did not discover that the stake-boat was some two miles to leeward of the head until too late. How Mr. Borde can now maintain that his boat has beaten six others, which were entitled to compete, but never had the opportunity, is not easy to understand. I also, although satisfied of the justice of Mr. Bloomfield's decision, am willing that the matter be referred to an officer of H. M. navy, either Lieut. Dick, who kindly fixed our time allowance, or any other. And if our referee should be of opinion that the stake boat was placed in the position agreed upon, he will then have to consider whether the claimant was entitled to throw his ballast overboard and the leading boat to use an oar instead of his sail power. EDWIN JOHNSON.
